

## Bolton Road at Marietta Boulevard

### Geometric Concept Recommendation

Short-term & Mid-term / RFPg  
 Reduction in signal phasing due to approach reduction  
 Capacity increased - reduced congestion  
 Reduction in vehicle queues extending northward  
 Increased accessibility to/from Moores Mill Road  
 Conflict points reduced - increased safety  
 Adams Road relocated - safer access and reduction in residential through trips  
 Improved pedestrian safety  
 Minimized right-of-way acquisition

Implementation Methodology -  
 2nd southbound left turn lane addition  
**Full-length exclusive left turn lane on Bolton**  
 Road extension  
 Moores Mill Road & DeFloors Ferry extended to Marietta Boulevard  
 Full pavement rehabilitation  
 Relocation of Adams Road and Atlanta Water Driveway  
 New traffic signal installations with pedestrian facilities
